

Mission to Honduras

My time here is coming to an end. I have now worked in Honduras for over a year and a half. I will be leaving Honduras on November 5th with two of my teammates Kenan Pitman and Hannah Baker.

Hannah Griffith, my other companion, has decided to stay until February.

The Future

Recently the church has been growing even more, welcoming the newest group from Potrerillos. Due to the increase in numbers we have decided to have all Sunday worship services in Corquin, except for the last Sunday of each month which will be in Santa Rosa with the rest of our brothers in Christ. God has blessed us with growing the church, and it has been amazing to be here to see the increasing number of Christians, now we have around 60 as compared to a year ago when we only had 20. Also, some of these members have been Christians for a year now and have started to take up more roles within the church.

DESEO

We have been visiting the schools here for almost a year now and we are finally reaching the end of the school year for DESEO. This program has done so much in trying to change and shape the community through these kids. We have been teaching them values such as responsibility and discipline, along with learning the values of the family and basic hygiene. This program creates an amazing change in the life of these kids, instilling in them things that their parents were not taught, things that can keep families together as well as giving them tools for life.

Home Coming

I am glad to have had this experience. I have never been so grounded in God's word and never has He been so close to me in my life. I will miss a lot of opportunities and people when I leave. But by the three of us AIMers leaving together we can save our brothers and sisters in Christ from having to say "Goodbye" multiple times which would be hard. Also, travelling to the airport is a very long drive and to help with departure dates, time, and expense; it is better that we all leave on the same trip as we do not want our trip home to be a burden. I am also excited to start up the next part of my life. After my graduation from AIM I plan on going to college and study engineering, minor in Spanish, and theology. I know that God has planted many seeds here and although, I will be unable to see the fruits of all these seeds fully grow, I am excited for the many more wonderful things God will do with this church here in Corquin.

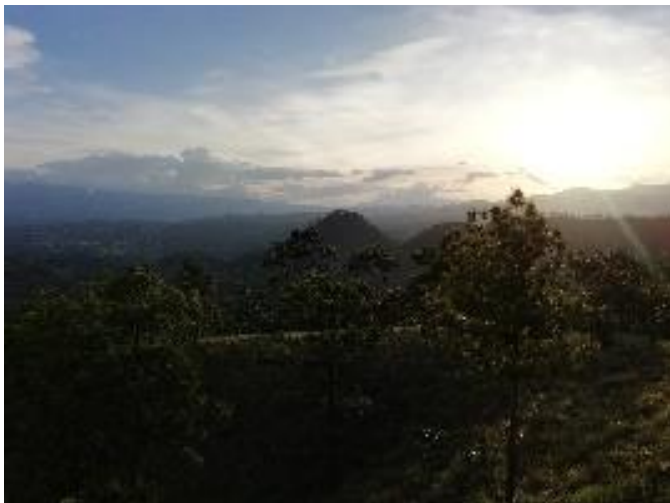

Thanks

This is the end. **Thank you.** Without your support for over this year and a half, I would never have had experience or have grown in Him as much as I have. I know that God has used me in His work here and I am grateful for the opportunity to see it first-hand. I am also glad to have had Mike and Kris Bridges as my coordinators to help guide me. You all have done so much for me, Thank you.
